The Great Karmic Board, through Sanat Kumara, chose the current thirty-day period during which the Easter Pageant would again be celebrated, as the time when Lord Maitreya Himself would outpour the Radiation and Blessing of the Cosmic Christ.

In order to give the chelas, particularly, and then the entire race the triple activity contained within the union of the Cosmic Christ Consciousness with the outer self, the Baptism and benediction of the Holy Spirit and the Radiation of the Master Jesus Himself, beginning last evening and extending up through Easter Monday, following the Resurrection Service, We shall, nightly, reenact the Spiritual Baptism of the Beloved Jesus, at which time the Cosmic Consciousness of Lord Maitreya joined His own Illumined Christhood and, through the Benediction of the Holy Spirit, prepared Him for the fullness of the Mission which He was to manifest before the sense consciousness of all men.

Last evening, as the moon poured down her silver rays on the gentle hillside of Kashmir, the Beloved Lord Maitreya entered the atmosphere of Earth, and Our Beloved Master Jesus, walking toward Him, was received into His Aura for that Spiritual Baptism before the reverent eyes of more than four hundred thousand members of the human race. At the moment when the full Rays from Lord Maitreya's Heart flashed through the gentle Presence of Beloved Jesus, I, too, entered the picture and anointed His Great Consciousness with

the Blessing which is the particular Gift and Outpouring of My Office.

It is no idle thing to have re-enacted on the physical substance of the Earth plane these great Initiations and Mysteries which form the pattern for the evolution of every lifestream on the planet, both incarnate and discarnate. It is one thing to revivify the akashic and etheric records of a past activity and to have re-embodied life-streams take the parts of the original actors and attempt to incorporate, through their own consciousness, the nature and feeling of the actual first participants, such as the good men and women of Oberammergau have done through the years, but it is quite another activity to have the original Cosmic Beings enter into that Service again in the full-gathered Cosmic Momentum of Their Light, and bring that experience into the feeling world of the outer consciousness of unascended beings.

On Easter Morning, We shall again proceed with the Activity of the Resurrection, and We are told that We shall again have re-enacted, through the Body of Jesus, the actual vibratory action and radiation of the Ascension, and I, Myself, shall bring the release through the Service of the Pentecost.

It has ever been the Way of God to teach through example, because the enacted scenes enter into the feeling and heartbeat much more deeply than the worded expression, and the outpictured Christ Manifestations which were witnessed by so few during the Ministry of the Master Jesus are being drawn forth again within the seven-day period so that all of the 200,000, at least, (and We expect

a great number of the Christian people of the world as well who will respond to the sympathetic vibration of Jesus' Ray), will be able to absorb the feeling of the Christ Activity as they see the Master Himself re-enact the exquisite manifestations of His Victorious Power over human appearances.

Each evening, Lord Maitreya will precede the pageant with a talk on the Power and Nature of the Cosmic Christ; and the Beloved Saint Germain, who so enjoyed the drama whereby lifestreams could present a lesson of some kind, together with some of the Chinese Beings who have inspired all of those exquisite plays through which the people of the East learn the Mysteries, have prepared the theme from the Life and Ministry of the Master Jesus, during which He made 'the blind to see'; 'the lame to walk'; and 'the dead to rise'.

We are, of course, eliminating all reference to the trial and crucifixion, representing the perfidy of the outer self, but have included the formation of the Lord's Prayer, the Sermon on the Mount, the Silencing of the waves, the Precipitation rendering the balance unto Caesar, and some of the lovely home scenes in which the Disciples, the Beloved Mary and Martha, and His own Dear Mother enjoyed the companionship and Friendship of His Presence.

For mankind this year, the Life of Jesus will be more real, and for the chelas and students He will become such a Powerful, Living Presence by reason of this service of the Holy Week, that they will be greatly helped thereby, and I only wish that We could have reached the student body in time to bring each member some phase of Jesus'

Victorious Accomplishment that they might present it to their collective groups preparatory to their entering the Heart of the Silence where We do such honor to His Name.

Blessings and Love,

MAHA CHOHAN

Beloved Children of God, may I bring to you the Blessings of the Easter Season? The celebration of the life that begins to pulsate through the responsive Earth, drawn forth by the magnetic powers of the Sun is as old as life on the planet itself, because always, among the children of Earth, were those who were cognizant of the dependence of mankind upon the cooperation of the Forces of Nature for their very existence in human form.

The rhythm of the Seasons has ever been regulated by the Great Beings who offered to provide, through Their Presence within the aura of the planet, the atmosphere which would conduct the Rays of the Sun; the living, breathing earth through which the precipitation of the food and nourishment of the evolution could be accomplished and the crystal clear waters bringing refreshing, purifying essence in their presence; and the air which is requisite to life in a physical form.

Under the God-direction of the Maha Chohan of each age, the Nature Kingdom and the Great Beings who direct the Forces of the Elements have labored ceaselessly; and if it were not for their constant unchanging cooperation and service, there would not be a lifestream that could live for one minute on the planet - were the air, for instance, to be removed - or the platform of Earth on which the homes and the very feet of the people stand - or the water element of which even their bodies are mostly composed - or the life and light of the physical sun ---- !
